

Drilling – Oil/Gas On Shore

Qualification

- DRT20903 - Certificate II in Drilling (Oil/Gas On Shore)
- DRT30903 - Certificate III in Drilling (Oil/Gas On Shore)

Our Delivery

At Training Prospects we deliver our training in a flexible method, to suit you – the employer. We offer:

- A combination of on-job and off-job training methodologies
- Intake for new apprentices all year around
- Training delivered in both metro and regional areas

Our on-job / off-job combination training benefits you as the employer in many ways which include:

- Having more input in your employees training
- Gaining more of an understanding of your employees training requirements
- Direct liaison with your employees trainer

Training Prospects off-job training facilities have been designed and maintained with industry best practice in mind. They provide students with the opportunity to learn the key traditional skills of their chosen vocation as well as modern techniques.

Qualification Summary

This qualification is suitable for drillers supervising teams of assistants and running site operations on onshore oil or gas rigs. The role may require application of some discretion and judgement in selecting equipment, services or contingency measures. It includes training in deck operations, handling of cargo, as well as preparation and operation of drilling fluid systems and undertaking rig floor operations.

A qualification in Drilling (Oil/Gas On Shore) will give your employee the backing to work effectively in a range of areas. These areas include but are not limited to:

- Derrickman—Oil/Gas On Shore

Subject to eligibility, some or all of the costs of Training Prospects Drilling Training may be offset using Commonwealth Incentives.
